## Grades and Transcripts

### Grading System

Grade	Quality	Grade Points
A	Excellent	4
B	Good	3
C	Satisfactory for undergraduates but may not be acceptable at the graduate level.	2
D	Minimal pass for undergraduates and may not be acceptable at the graduate level in the College of Health Sciences. Not used at the graduate level in the College of Nursing.	1
F	Failure	0
P	Passing	—
N	Not Passing	—
H	Honors—Rush Medical College only	—
W	Withdrawal prior to midterm	—
WP	Withdrawal passing after midterm	—
WN/WP	Withdrawal failing after midterm	—
K	Credit earned through proficiency examination	—
NR	Grade not reported by instructor	—
I	Incomplete	—
CC	Course continues into the next quarter. Grade received at the end is then recorded for all terms covered by the course	—
XX	Participation in an ungraded residency or fellowship	—

**Grade Report.** A quarterly grade report is mailed to each student's local home address as soon as grades have been recorded each term. Grades are usually mailed within five working days of the end of the examination period. Grades neither will be issued over the phone nor given to students who attempt to pick them up in person.

The quarterly grade report is the student's copy only, and it should not be accepted by an institution or agency in lieu of an official transcript.

**Academic Record.** The permanent academic record is the student's official transcript that includes all course work taken at Rush University. External transcripts for medical students reflect the highest grade reported for each course at the time a transcript is requested. The academic record is maintained permanently in the Office of the Registrar.

**Transcript Requests.** Copies of the academic record may be obtained at no cost to the student or former student. These transcripts are released only with prior written consent of the student. Students may either complete a transcript request form or write the Office of the Registrar, 1743 West Harrison Street, Chicago, Illinois 60612. The letter must include a handwritten signature of the student. Transcripts will not be released if the student has an outstanding financial obligation to the University. Two days should normally be allowed for processing.

Transcript requests by medical students to be used in support of residency applications should be made to the Office of Clinical Curriculum of the medical college rather than to the Office of the Registrar.

Copies issued to students will be stamped in red ink "Issued to Student." All copies bear the signature of the registrar or his/her designate and the seal of Rush-Presbyterian-St. Luke's Medical Center.

Rush Medical College only uses honors (H), pass (P), and fail (F).

*This is the Make-up Policy*

**Make-up Examinations for Failed Courses in First and Second Years**

A student receiving a failing grade at the completion of a course shall be given an opportunity to take a single make-up examination as a means of demonstrating his/her proficiency in the subject and rectifying his/her failure. However, a student may take make-up examinations in no more than two courses in any one quarter. If more than two courses are failed, the student, in consultation with his/her academic advisor, may choose which examinations to take. Make-up exams will be completed no later than the first week of the quarter following a course failure. Format and content of make-up exams will be determined by the course director. Make-up examinations will be scheduled by the dean's office in consultation with the appropriate course directors.

COSEP shall review the status of students who fail make-up examinations or who have outstanding course failures for which they did not qualify to take make-up examinations and shall consider options for remedial work.

**Status of Students with Course Failures**

At appropriate times during the academic year, as determined by the chairperson of COSEP in consultation with the associate dean for medical student programs, COSEP will review the progress of each student who has failed a course. After such review, COSEP shall establish requirements which a student must meet in order to resolve his/her deficiencies in academic performance or shall recommend dismissal.

No student shall be promoted from the second year to the third year until he/she satisfactorily completes all requirements of the first and second years. COSEP, in its discretion, may schedule second-year courses concurrently with make-up work for unsatisfactory first-year work, as it may consider appropriate for an individual student.

**Remedial Programs for Students Failing Courses**

*First and Second Years.* COSEP shall establish requirements for remedial work for students with one or more outstanding course failures in the first or second year. Remedial work requirements shall be reasonably related to the seriousness of the student's deficiencies. Such requirements may include, but need not be limited to:

- Summer tutorial study with reexamination.
- Participation in an approved summer course.

- Retaking failed courses during the next academic year.
- Retaking all courses including those satisfactorily passed.

In developing requirements, COSEP will consider the needs of the individual student and will endeavor to develop a program which, if successfully completed, will strengthen the student's prospects for successfully completing the remainder of his/her college program. Students who have no outstanding failures at the end of an academic year, but who have had to take make-up examinations in courses whose total of scheduled instructional hours equals or exceeds 30 percent of the complete program of instruction for that entire academic year may be placed on academic probation, in which situation COSEP will establish the requirements which students must meet before they are able to proceed to the studies of the next academic year.

*Third and Fourth Years.* A failure in a required core clerkship must be made up in a manner prescribed by the course director consistent with the reasons for the student's failure. Should a student be required to repeat all or part of the clinical rotation, effort should be made to have the student work with different supervisory and instructional staff. A student failing an elective clerkship must either repeat the elective or, with the approval of the dean's office, complete an alternative elective.

**Failure to Pass Part I of National Board of Medical Examiners**

All students must take Part I of the NBME no later than September following the school year of their enrollment in the second-year curriculum. Students who do not pass NBME Part I by November of their third year will be placed on probation and reviewed by COSEP. After consultation with the student and his/her academic advisor, COSEP may require the student to defer part or all of his/her clinical program to provide sufficient time for preparation. Students who fail the examination three times will be subject to dismissal.

**Graduation Requirements**

The following are prerequisites to the granting of the degree of doctor of medicine by Rush University:

- The level of achievement required by the faculty for the degree of doctor of medicine must be attained in a minimum of 35 months.

NAME: Susan Crifase

No. \_\_\_\_\_ MATRICULATION YR. 1983

PREMEDICAL:

DEGREE	SCHOOL
B.S.	Univ. of IL-Urbana, Nutrition, 1977
B.S.N.	North Park College, Chicago, Nursing, 1979

	Path	- passed written midterm, passed oral midterm, passed final	
	P-Phys	- failed midterm, failed final (cum)	
	* Pharm	- failed midterm, failed final, failed makeup, passed 2nd makeup	
SPR 85	- CC&S	- passed	
	Path	- passed NBME Mini Boards	
	* P-Phys	- failed final, failed makeup, passed 2nd makeup	
	Pharm	- passed final	

This document is Unfair "White Student Treatment"

\* Note:

Yellow Highlight denotes illegal make-up's via the school policy.

The numbers 1 & 2 are the maxium make-up's allowed in a quarter.

LEWIS, MARTIN EDWARD

1983-84 Academic Year

FALL 83 - Anat - failed - passed makeup  
Bio - failed, ineligible for makeup  
Histo - failed - passed makeup  
Physio - failed - ineligible for makeup

WTR 84 - Anat - failed - passed makeup  
Bio - failed - ineligible for makeup  
Physio - failed - ineligible for makeup  
B.S. - failed - failed makeup

SPR 84 - Bio - failed - passed makeup  
Neuro - passed (58.8, MPL 56)  
Micro - failed - ineligible for makeup  
B.S. - failed - passed makeup  
P.M. - failed - passed makeup

**Note: Black Student Treatment**

**Here Martin is held to the strict Make-up exam Policy**

**Martin, being a black student, did not receive the same Unfair advantages given to Susan Crifase being white.**

REQUIRED TO REPEAT FIRST YEAR COURSES

Note:  
Martin passed all of his classes in the spring of 1984 but looking at his record it show's he failed all of his classes.

They have changed his grades from Pass to Fail

This proves Martin was forced to take unnecessary Make-up exams.

Note:

Martin Passed Neurobiology 451 and Behavior in Life Cycle 453 in the Spring of 1984. Though he failed it in his second freshman year it should've counted as a pass because he passed it the year before. This taking classes over in Martin's case that were passed previously is utter nonsense and a waste of his academic time.

DISMISSED FROM THE PROGRAM

A passing Grade should count when it is passed.

There's not enough "F's" to justify dismissal.

### Note:

This is the result of Dr. Goodman unfair and illegal racial preference for this white student Susan Crifase to be given unfair advantages to cheat by unlimited extra make-ups and eventually prosper with multiple offices in her practice.

Martin Lewis being black and held to the strict standard of the make-up policy having his grades change from pass to fail and eventually dismissed from medical school wrongfully has no offices, no practice.

Dr. Goodman knew then Martin was not going to be allowed to pass as was planned by Dr. Goodman and the late Dr. Henry P. Russe and is left to fight and expose Dr. Goodman for the unnecessary and outrageous racial discrimination and devastation of a promising medical career of Martin Lewis.

...And Expose We Will !!!
